

Privacy Policy

Paper Boat Games | Hero Wing

Effective Date: May 20, 2026

1. Overview

Paper Boat Games ("Developer", "we", "us"), a sole proprietor operating under the laws of the Republic of Korea, operates the mobile game Hero Wing (the "Service"). This Privacy Policy explains what information is collected through the Service and how it is handled.

Hero Wing is a standalone game with no backend servers. We do not directly collect, store, or process any personal data. However, third-party advertising SDKs integrated into the Service may collect certain device information, as described below.

2. Information We Collect

Paper Boat Games does not directly collect, store, or process your personal information.

We do not operate:

- User accounts or registration systems
- Login or authentication services
- Cloud save or server-side game data storage
- Analytics tied to individual user identity

Game progress data (scores, settings, etc.) is stored locally on your device only.

3. Third-Party Services – Unity Ads

What Unity Ads Collects

The Service uses Unity Ads, an advertising platform operated by Unity Technologies, to serve advertisements. Unity Ads may collect the following information for the purpose of serving and measuring ads:

- Advertising identifiers (Google Advertising ID / GAID)
- Device information (manufacturer, model, OS version)
- IP address and approximate location
- App usage events and ad interaction data
- Network connection type

Rewarded Advertising

The Service offers optional rewarded ads. Watching a rewarded ad is entirely voluntary — you choose to watch an advertisement in exchange for in-game rewards (items, currency, etc.). Declining to watch ads does not restrict access to the core gameplay.

Unity Ads Privacy Policy

For full details on how Unity Technologies collects and processes data, please review the Unity Privacy Policy: <https://unity.com/legal/privacy-policy>

Opting Out of Personalized Ads

You can limit ad personalization through your device settings:

- Android: Settings → Google → Ads → Delete Advertising ID or opt out of Ads Personalization

4. Children's Privacy

The Service is rated suitable for ages 4 and up. We do not knowingly collect personal information directly from children under the age of 13.

Unity Ads provides COPPA (Children's Online Privacy Protection Act) compliance mechanisms, and we configure the Unity Ads SDK in accordance with applicable guidelines for child-directed content.

Parents and guardians of children under 13 are encouraged to reset the advertising ID or disable personalized ads on their child's device through the device settings.

5. Google Play Data Safety

The following information is disclosed in the Google Play Data Safety section:

- Data collected: Advertising ID, device information (collected by Unity Ads)
- Data shared: Shared with Unity Technologies for advertising purposes
- Data encryption: Per Unity Ads policy
- Deletion requests: Handled by resetting the device Advertising ID

6. Changes to This Policy

We may update this Privacy Policy from time to time in response to changes in law, SDK updates, or service changes. Updates will be communicated by revising the Effective Date on this document and, where appropriate, through an in-app notice.

For material changes, we will provide prominent notice within the Service prior to the change becoming effective.

7. Contact Us
